

## **Public Information Session**

### **Proposed Drilling Mud Processing and Storage Plant 24-42 Hops Street, Chamberlains**

A public information session regarding the proposed development will be held in the Gerald Greenslade Gallery at the Conception Bay South Town Hall, 11 Remembrance Square, Long Pond, Conception Bay South at 7:00 pm on October 16, 2019.

The Town is in receipt of an application to develop a “Drill Mud Processing and Storage Facility” at 24-42 Hops Street, Chamberlains within the Conception Bay South Industrial Park.

The proposed plant would treat used drill mud from the oil and gas industry through a closed distillation process that does not produce any significant emissions, effluent or solid waste. The proposed facility is classified as a “General Industrial Use” by the Conception Bay South Municipal Plan.

This property is located in the Commercial Light Industrial (CLI) Zone where General Industrial uses are listed as discretionary. In accordance with section 4.14 of the Town’s Development Regulations, Council provided public notice of the application on July 31 2019. In consideration of representations received by the Town, Council determined that, prior to deciding on this application, they would convene a Public Information Session to provide an opportunity for the applicant to provide further information regarding the proposed development.
