

Title: Latex Balloon Policy
Policy Number: 027

Resolution Number: 07-282
Date Approved: July 3, 2007

PURPOSE:

To promote a safe environment with prevention of injury from latex balloons by eliminating the use of latex balloons indoors at Town owned facilities.

AUTHORITY:

- Council Discretion

PROCEDURE:

As many residents of the Town of Conception Bay South suffer from various forms of latex allergies and due to the potential threat of aspiration in children, the Town of Conception Bay South will ban the use of latex balloons from their indoor facilities and will post signs for all individuals/organizations using these facilities to adhere to the ban even in private functions.

Mylar balloons are acceptable. Mylar helium balloons are the metallic, non-aspirate balloons.

It is the responsibility of staff and facility users to enforce the policy.
